

What is Aianna AiannaWorld?

AiannaWorld stands for international Number. It is a new kind of global phone number for a new kind of world -- a world with a new geography that's about local presence and global relationships, not about distance or national borders.

Aianna World is making use of the +883 global country code newly created by the ITU (International Telecommunication Union).

One number, worldwide, for life!

Traditional phone numbers are tied to a particular country, or even a particular city, so when you move to another country you need to get a new number from a new supplier. Aianna World numbers however do not have this limitation and you can therefore keep your Aianna World wherever you go in the world. You will always be reachable on the same number for the rest of your life.

One number for multiple services

AiannaWorld initially supports voice calls only, but it will soon support more services. Stay tuned!

Who can call my AiannaWorld?

AiannaWorld are reachable from a growing list of networks. Eventually AiannaWorld will be reachable from any network worldwide just as any other 'real' phone number.
